Re: Freedom of Information Act Request

Dear Ms. Simons:

This letter is in response to your request dated March 21, 2005. Your request came immediately before the district's spring break and it was necessary to check with the district's Instructional Technology Services Department (hereinafter referred to as ITS) and what occurred in the district's 29 elementary schools to appropriately address your request.

The district's ITS Department contacted all elementary ITS and none of them have reported receiving this DVD or playing it in their schools. March 11, 2005 was a district holiday, so it was definitely not broadcast in any of our schools on that date.

If you have additional questions or concerns, please feel free to contact me at (803) 231-7404.

Sincerely,

Susan G. Williams
District Counsel

c: Mrs. Ida Thompson, ITS Director
